EDUCATION

The Ohio State University
Bachelor of Science in Computer Science and Engineering

Columbus, OH
Expected May 2026

TECHNICAL SKILLS

Programming Languages: Java, TypeScript, JavaScript, Python, C, C++, HTML, Kotlin, Swift
Frameworks & Tools: Next.js, Git, Docker, Linux/UNIX, Express.js, Tailwind CSS, MongoDB, Jetpack Compose, SwiftUI
Certifications: AWS Cloud Practitioner, CodePath Advanced Technical Interview Prep, CodePath Intro to iOS Development

WORK EXPERIENCE

JPMorgan Chase & Co. Columbus, OH
Software Engineering Program Intern - Mobile Development June 2025 - Present

- Self-taught **Jetpack Compose** and **MVVM** patterns to accelerate onboarding and contribute to the Chase Android app, used by **70M+ users**
- Collaborated with developers to refactor existing merchandising tile logic and adapt Android View templates for a new tile design, improving customer interaction by **15%**
- Led the transition of my team's package to Jetpack Compose by rewriting merchandising tiles and their bindings, pioneering Compose adoption, enabling more flexible layouts for future features, and decreasing future developer efforts

Software Engineering Program Intern - Full Stack Web Development June 2024 - May 2025

- Pioneered the modernization of an internal financial tool's UI, transitioning from an outdated **JSP** application to a responsive **React frontend**, designed to reduce task time by up to 50% for **1000+ global legal entities**, helping developers maintain 99% uptime
- Modularized the new frontend using a **microfrontend** architecture and existing APIs, enabling partial integration with the legacy system

The Ohio State University Wexner Medical Center Columbus, OH
Web Content Editor May 2023 - Aug 2024

- Led the Comprehensive Cancer Center's transition to a new CMS, empowering individual organizations to manage their own content and enabling more frequent content updates with streamlined workflows
- Revitalized webpages by designing and implementing a new UI system, achieving **100% accessibility compliance** and significantly improving user engagement and content delivery across the site

PROJECTS More at naj-dev.com

JPMC Global Hackathon – Internal Mobility Strategy (1st Place, Columbus) *React, Python, OpenAI API, NLP* June 2025

- Won 1st place out of 64 teams** at the Columbus division of JPMorgan Chase's 10th Annual Global Hackathon for building an internal mobility assistant to help employees discover and transition into better aligned roles
- Built a backend system that uses **NLP techniques** and Python's **Counter** to compare user resumes and job descriptions, scoring overlap to recommend best-fit internal roles; designed for future LLM integration
- Collaborated across frontend, backend, and agentic AI teams to build a chatbot-driven platform with role-matching logic and automated outreach workflows

JPMC Code for Good Hackathon - CTRL-R (1st Place, Pyramid CDC) *React, Firebase, Tailwind CSS, AWS EC2* Nov 2023

- Awarded challenge winner** for Pyramid CDC, a local non-profit focused on improving digital literacy in underserved Ohio communities, by developing a platform that engaged 1000+ residents with course paths and **gamification**, boosting retention
- Specialized in configuring the **Firebase store and authentication**, integrating it into the codebase, while collaborating with team members to create a fully functional, user-friendly platform

HDNCHQ Server *Docker, Linux, NGINX*

- Built and maintained a home server system using **Docker** and **NGINX**, increasing **uptime from 40% to 95%** and sextupling performance, securely managing and delivering content to dozens of international users
- Engineered the system using Linux, performing custom optimizations to drastically improve system reliability and user experience, supporting multiple media, file storage, and security devices

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

National Society of Black Engineers (NSBE) | Recording Secretary Aug 2023 - Present

- Oversee meeting documentation, coordinate weekly newsletters, oversee website and social media changes, and assist in planning events like NSBE Week, driving communication for 100+ members and collaborating with 150 chapters internationally

ColorStack - OSU | Active Member Aug 2023 - Present

- Participate in technical and behavioral interview workshops with industry leaders like Adobe and JP Morgan Chase, and mentor peers
